

## The Lebanon Community

The Lebanon Valley, nestled in beautiful South-central Pennsylvania, features many cultural and recreational opportunities and many affordable housing options. The mountains to our north and south include excellent hiking trails, beautiful lakes, abundant wildlife and spectacular views of the rolling hills of the rich agricultural valley. A favorite of many locals is the popular farmer's market featuring fresh produce and foods prepared by local vendors.

The area also offers excellent public and private schools as well as collegiate educational opportunities. Local venues for the performing arts, sporting events and social activities are varied and include a world-class theatre and theme park located in nearby Hershey.

## About The GSH

The Good Samaritan Hospital was established in 1889 to support the health care needs of the Lebanon community. Over 100 years later, the Hospital's mission remains constant in an ever-changing health care system. Accredited by JCAHO, we are a full service community Hospital licensed for 188 inpatient beds and 19 transitional care beds. Our system, diagnostics and therapies continue to change to keep pace with the advancements in medical technology to ensure provision of the latest health care. Our organization takes great pride in our unique brand of health care delivery, committed to high quality, high touch and special attention to coordination of care across the continuum of health services.

We believe that quality health care is the result of competent and caring providers, who are well-educated and well-trained in their field and fully supported in their mission to meet the

needs of their patients. Because we know the power of great people, we believe building an effective team starts with recruiting the right people. We believe these professionals need the right tools, equipment and facilities, to perform at a high level. We also believe they deserve competitive wages and benefits, as well as an atmosphere conducive to personal and professional growth.

## GSH Career Choices

Nursing and Health Care professionals may choose to work in an inpatient medical-surgical unit, obstetrical suite with a family-centered care concept, intermediate or critical care unit, pediatric

unit, acute rehabilitative care unit or preoperative care field which includes a multitude of surgical specialties. Health care professionals may also choose from a variety of options such as home health care, skilled care in our transitional care unit, and Hospice. Nurses may also choose to work in emergency medicine, dialysis, or a variety of educational roles.

As a full-service hospital system, we also provide opportunities for other health care professionals in one of our diagnostic and therapeutic areas.

This includes physical therapy, occupational therapy, respiratory therapy, speech and audiology, laboratory services, radiology, mammography, nuclear imaging, CT Scan, ultrasound, MRI, and comprehensive cardiology diagnostics including state of the art cardiac cath & angiography labs. We know that the success of our organization is a result of the success of individuals within our organization to pursue and achieve their professional goals.
